Common Sense Catechism.

"Sonny, what is law?"
"It is a darned law."
"What is a justice stand?"
"A place where the hiring crew assemble to hold picnics."

"Very well; now what is a picnic?"
"A picnic is a high carnival held over a murderer who has money—a place where the hiring crew thousands of fool questions, read papers, whisper to the prisoners, wall back their eyes and look wise."

"Well, now tell us what's a jurymen?"
"A jurymen is a man who does not read the papers or talk to his neighbors and think any for himself. He is generally supposed to be a back-woodsman who knows nothing and a fit subject for the hiring gang to work on. Good men are sometimes put on juries for the purpose of showing a shadow of fairness by the hiring crew to prisoners, but in most cases the gang manages to work in a soft one or two for stubborn purposes."

"That's very well, now tell us what is justice?"
"Justice is a thing that is but little used now since the power has been taken out of the people's hands and put into the hands of a few hirelings. It is a thing always wanted by the innocent, and never wanted by the guilty."

"That's all right; now tell us what's a Governor?"
"A Governor, generally speaking, is a Governor, but is the Right Worlthy Grand Blatherskite Chief of the hiring crew, whose duty it is to rescind all the findings of the farces called 'lower courts,' and even undo the works of the Court of Appeals."

"Well, now tell us what an editor is, will you?"
"An editor is generally a dunkey fool and a tool for everybody and good for nothing. His duty is to post himself thoroughly on the laws of the land, laws of society, &c. It is also his duty to mould public opinion, to battle for the right and spurn that which is wrong and antagonistic to law, order and society."

"And he's a man who should be severely punished when he knows his duty and fails to do it through mercenary policy. There are but few editors who do to their duty, and the fact is, they are growing fewer every day. Gatherers of local goss and attending big dinners and supper and clipping gossip are not editors in the true sense of the word."

"Now my son, you can go a-fishing, and when you get older you can go to editing a paper. The people are growing enlightened a little now and need a few good editors. The hiring gang has been preening too long on the ignorance of the people and fattening on their duplicity. The time is fast approaching when the gang will be shaken, and I want you there to see them fall."

PRESIDENT ARTHUR attended three different churches in St. Augustine on one day, and, if the dispatches would only tell the whole truth, he probably also went fishing.

The Cincinnati News has bought the Associated Press franchise of the Morning Journal Company for \$115,000. This puts the News on an equal footing with the Enquirer and Commercial-Gazette so far as dispatches are concerned.

FOR ONE THOUSAND DOLLARS the vilest murderer in Kentucky can be turned loose on the innocent people and greeted as a hero, under the present mode of selecting jurors. Our Constitution should be revised so as to give the majority of jurors in all cases the ruling power.

Our ticket: For Governor, Proctor Knott; Lieutenant Governor, Van B. Young; Register of Land Office, Capt. Ralph Sheldon; Auditor, Gen. Fayette Hewitt; Attorney General, A. R. Jones; Superintendent of Public Instruction, Joe Desha Pickett; For Treasurer, anybody to beat Dick Tate!

An Ohio man who happened to be in Florida, disguised in an alligator skin and swam a river on which President Arthur was a fishing, to beg him for an office. It is said that one of the fishermen shot at the supposed alligator, but the skin of the man flattened the ball after it had penetrated the alligator's skin.

Most of the newspapers in Kentucky lack the moral courage to lead off boldly and independently towards moulding public opinion in behalf of justice and square dealing. Let them rise up in their mighty power and battle the wrong, and all good and law-abiding citizens will protect them. It is the press alone that can convict the people with a sense of justice.

A CONCRETE manufacturer at Buffalo, N. Y., who has examined the Egyptian Obelisk in Central Park, says that it, as well as all the other obelisks and the great pyramids were manufactured of concrete—broken granite, bituminous matter and hydraulic lime. He offers to duplicate the New York obelisk for \$115,000. This rather explodes the idea that the stone of the pyramids were brought from the Mountains of the Moon, 300 miles up the Nile, on flat-boats.

STRENGTH

to vigorously push a business, strength to study a profession, strength to regulate a household, strength to do a day's labor without physical pain. All this represents what is wanted, in the often heard expression, "Oh! I wish I had the strength!" If you are broken down, have not energy, or feel as if life was hardly worth living, you can be relieved and restored to robust health and strength by taking **BROWN'S IRON BITTERS**, which is a true tonic—a medicine universally recommended for all wasting diseases.

JOHN T. HINTON, Baltimore
 During the war I was injured in the stomach by a piece of a shell, and have suffered from ever since. About four years ago I brought on paralysis, which kept me in bed six months, and the best doctors in the city said I could not live. Infeared fearfully from indigestion, and for over two years could not eat solid food and for a large portion of the time was unable to retain even liquid nourishment. I tried Brown's Iron Bitters and now after taking two bottles I am able to get up and go around and am rapidly improving.

ATTENTION, HORSEMEN!

We call the attention of the farmers and breeders of horse stock, that I breed at my place, horses for beauty and symmetry as well as for trotting purposes. If a careful inspection is made of the sire and offspring of any horse, I would then most respectfully call attention to Caliban and his offspring—some ten or twelve of which can now be seen at my stable. Caliban will be permitted to serve a limited number of mares the coming season, offered by first-class men, (no others need apply,) at \$25 to insure.

Caliban has a record of 2:24, and in the opinion of such horsemen as Dr. L. Herr, he could have trotted as well or better than 2:30 on the day which he has record. Two of Caliban's yearling colts showed better than a four minute gait on my independent track last spring.

I will call the attention to the fact that Manbrino Chief, with the Pilot and Clay cross, has produced some of my most noted horses. I breed for speed as well as sixteen-hands high horses, high style and range.

Caliban is the sire of Cyclone and Coaster, both with records better than 2:27.

STANDARD BEARER.

This celebrated horse will make the season of '83, at my stable, three miles from Millersburg and six from Paris, on the Jackstown pike, at Ten Dollars The Season, or Fifteen Dollars to insure a living colt.

STANDARD BEARER is a bay, foaled 1867; fifteen hands and three inches high; by Volunteer; dam, by Joe's Abolition Chief; Volunteer, by Rysdyk's Hambletonian.

Like all the sons of Volunteer, Standard Bearer is proving himself a fine stock horse; his produce being large, finely formed, with superb action.

Also, my three-year-old youngjack, Lord Wellington,

15 hands and 1 inch high, good bone and length, will stand at Ten Dollars to insure a living colt.

Money due in both cases when the colt comes or mare parted with—a lien retained on the colts until season money is paid.
